EXECUTIVE SUMMARY

Visionary technology executive with 15+ years leading engineering organizations at high-growth startups. Proven track record scaling teams from 10 to 200+ engineers while maintaining quality and velocity. Expert in cloud architecture, AI/ML systems, and building engineering cultures. Successfully raised \$100M+ in funding and led technical due diligence for 2 acquisitions.

CORE COMPETENCIES

Engineering Leadership & Scaling | Technical Strategy & Architecture | Team Building & Culture

Product & Technology Roadmap | Cloud Infrastructure at Scale | AI/ML Product Development

M&A; Technical Due Diligence | Board & Investor Relations | P&L; Management

TECHNICAL EXPERTISE

Languages: Python, Java, JavaScript, Go, C++

Architecture: Microservices, Event-Driven, Serverless, Distributed Systems

Cloud: AWS (Expert), GCP, Azure | Infrastructure: Kubernetes, Docker, Terraform

Data: PostgreSQL, MongoDB, Redis, Kafka, Spark | AI/ML: TensorFlow, PyTorch, LLMs

EXECUTIVE EXPERIENCE

Chief Technology Officer | InnovateTech Corporation | San Francisco, CA

January 2019 - Present

- Lead technology organization of 150+ engineers, data scientists, and product managers
- Set technical vision and strategy for AI-powered SaaS platform serving 500K+ users
- Scaled engineering team from 25 to 150 while maintaining high performance and low attrition (<8%)
- Architected cloud infrastructure handling 100M+ API calls daily with 99.99% uptime
- Led migration from monolith to microservices reducing deployment time from days to hours

- Implemented AI/ML capabilities increasing product capabilities and competitive differentiation
- Managed \$25M annual technology budget and optimized cloud costs by 35%
- Built engineering culture focused on innovation, ownership, and continuous learning
- Presented technical roadmap to board of directors and Series C investors (\$80M raise)
- Led technical due diligence for acquisition of 2 companies (\$15M combined)
- Established security and compliance programs achieving SOC2 Type II and HIPAA certification

VP of Engineering | ScaleTech Solutions | Seattle, WA

March 2015 - December 2018

- Built and led engineering organization from 10 to 75 engineers
- Delivered product roadmap on time and on budget with 95% release success rate
- Implemented engineering best practices: CI/CD, code review, automated testing, monitoring
- Reduced production incidents by 60% through improved processes and system reliability
- Established hiring pipeline attracting top talent from FAANG companies
- Mentored 8 engineering managers and 3 directors
- Collaborated with CEO and product leadership on company strategy
- Led Series B fundraising technical presentations (raised \$40M)

Director of Engineering | CloudScale Inc. | San Francisco, CA

June 2012 - February 2015

- Led team of 20 engineers building cloud infrastructure platform
- Designed scalable architecture supporting 10x traffic growth
- Implemented agile processes and DevOps practices
- Grew team from 8 to 20 engineers through strategic hiring
- Reduced infrastructure costs by 40% through optimization initiatives

Senior Software Engineer | Tech Giants Corp | Mountain View, CA

July 2009 - May 2012

- Built distributed systems processing billions of events daily
- Led technical design for critical platform components
- Mentored junior engineers and conducted technical interviews
- Contributed to open source projects and published technical blog posts

EDUCATION

Master of Science in Computer Science | Stanford University | 2009

Specialization: Distributed Systems and Databases

Bachelor of Science in Computer Engineering | UC Berkeley | 2007

Magna Cum Laude | GPA: 3.9/4.0

BOARD & ADVISORY ROLES

- Technical Advisor - Venture Capital Firm (2022-Present)
- Advisory Board Member - Startup Accelerator (2020-Present)

PUBLICATIONS & SPEAKING

- Keynote Speaker - TechCrunch Disrupt 2023: "Scaling Engineering Teams in the AI Era"
- Published article in Harvard Business Review: "Building Engineering Culture at Scale"
- Regular speaker at engineering leadership conferences and podcasts
- Technical blog with 100K+ monthly readers

AWARDS & RECOGNITION

- "Top 50 CTOs to Watch" - CTO Magazine (2023, 2022, 2021)
- "Most Innovative Tech Leader" - SF Tech Awards (2022)
- Named in "40 Under 40" list by Tech Business Journal (2020)

PATENTS & PUBLICATIONS

- 5 issued US patents in distributed systems and machine learning
- 8 technical papers published in conferences and journals

CERTIFICATIONS & CONTINUOUS LEARNING

- AWS Certified Solutions Architect - Professional
- Executive Leadership Program - Stanford Graduate School of Business
- Regular participant in CTO roundtables and leadership forums
