Location: Washington, DC | LinkedIn: [linkedin.com/in/jessicathompson](https://www.linkedin.com/in/jessicathompson)

SUMMARY

Security engineer with 5 years protecting cloud infrastructure and applications. Specialized in penetration testing, vulnerability management, and security automation. CISSP certified with hands-on experience in AWS security and compliance.

TECHNICAL SKILLS

Security: Penetration Testing, Vulnerability Assessment, Security Architecture, Incident Response

Frameworks: OWASP, NIST Cybersecurity Framework, CIS Controls, MITRE ATT&CK;

Tools: Burp Suite, Metasploit, Nmap, Wireshark, Nessus, Qualys, Splunk, SIEM

Cloud Security: AWS Security Hub, GuardDuty, IAM, Security Groups, KMS, CloudTrail

Scripting: Python, Bash, PowerShell

Compliance: SOC2, HIPAA, GDPR, PCI-DSS

Infrastructure: Docker, Kubernetes, Linux, Windows Server

PROFESSIONAL EXPERIENCE

Security Engineer | SecureStack Technologies | Washington, DC

April 2021 - Present

- Conduct penetration testing and security assessments on web applications and infrastructure
- Implement security controls and monitoring in AWS environment serving 50K+ users
- Perform vulnerability scanning and coordinate remediation with development teams
- Built automated security scanning pipeline reducing vulnerability detection time by 70%
- Respond to security incidents achieving average resolution time of 4 hours
- Achieved SOC2 Type II certification and maintain ongoing compliance
- Conduct security awareness training for 100+ employees quarterly
- Implement WAF rules and DDoS protection using AWS Shield and CloudFront

Information Security Analyst | CyberDefense Corp | Arlington, VA

June 2019 - March 2021

- Monitored SIEM alerts and investigated security events using Splunk
- Conducted vulnerability assessments and tracked remediation progress
- Performed security code reviews and provided remediation guidance
- Assisted with incident response and forensics investigations
- Maintained security documentation and runbooks
- Participated in on-call rotation for security operations center

Junior Security Analyst | TechSecure Inc. | Washington, DC

July 2018 - May 2019

- Analyzed security logs and identified potential threats
- Assisted with vulnerability scans and penetration tests
- Documented security findings and created remediation tickets
- Helped maintain firewall rules and access controls
- Participated in security awareness initiatives

EDUCATION

Bachelor of Science in Cybersecurity | George Washington University | 2018

GPA: 3.7/4.0

Relevant Coursework: Network Security, Cryptography, Ethical Hacking, Digital Forensics

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP) - 2022
- Certified Ethical Hacker (CEH) - 2021
- AWS Certified Security - Specialty - 2023
- CompTIA Security+ - 2018
- GIAC Security Essentials (GSEC) - 2020

PROJECTS & ACHIEVEMENTS

- Led security remediation project reducing critical vulnerabilities by 85%
- Implemented security automation tools saving 15 hours per week
- Discovered and responsibly disclosed 3 critical vulnerabilities in open source projects
- Built security scanning tool open sourced on GitHub (150+ stars)

PROFESSIONAL DEVELOPMENT

- Active participant in OWASP DC chapter meetings
- Completed SANS SEC542: Web App Penetration Testing course
- Regular attendee of DEF CON and Black Hat conferences
- Maintain home security lab for hands-on practice

ADDITIONAL SKILLS

- Experience with container security scanning (Trivy, Anchore)
- Knowledge of zero trust architecture principles
- Familiar with threat modeling and risk assessment
- Understanding of secure software development lifecycle
