

# MARCUS JOHNSON

Senior Software Architect

Email: marcus.johnson@email.com | Phone: (415) 555-0299

Location: San Francisco, CA | LinkedIn: [linkedin.com/in/marcusjohnson](https://www.linkedin.com/in/marcusjohnson)

## PROFESSIONAL SUMMARY

Seasoned software architect with deep expertise in system design and technical leadership. Proven track record of architecting scalable systems and leading engineering teams to success.

## TECHNICAL SKILLS

Languages: Python, Java, JavaScript, Go

Architecture: Microservices, Event-Driven, Domain-Driven Design

Cloud: AWS (EC2, S3, Lambda, ECS, RDS)

Databases: PostgreSQL, MongoDB, Redis, DynamoDB

Tools: Docker, Kubernetes, Terraform, Jenkins

## PROFESSIONAL EXPERIENCE

### Senior Software Architect | TechCorp Solutions | San Francisco, CA

*June 2023 - August 2023*

- Led comprehensive migration of legacy monolith system to modern microservices architecture
- Architected new payment processing system from ground up handling enterprise-scale transactions
- Mentored team of 3 junior engineers on system design principles and architectural best practices
- Reduced infrastructure operational costs by 40% through strategic optimization initiatives
- Built strong engineering team culture focused on excellence and continuous improvement
- Designed and implemented event-driven architecture for real-time data processing
- Established architectural review board and RFC process for major technical decisions
- Collaborated with cross-functional teams across product, design, and operations
- Drove adoption of modern DevOps practices and CI/CD pipeline improvements

### Software Engineer | StartupVentures | Palo Alto, CA

*January 2022 - May 2023*

- Developed backend features for SaaS platform using Django and PostgreSQL
- Implemented REST APIs and integrated with third-party services

- Participated in code reviews and pair programming sessions
- Wrote unit tests and improved test coverage
- Collaborated with product team on feature requirements

#### **Junior Developer | WebTech Inc. | San Jose, CA**

*August 2021 - December 2021*

- Assisted senior developers with feature implementation
- Fixed bugs and improved application stability
- Learned agile development methodologies
- Attended architecture meetings and design discussions

## **EDUCATION**

**Bachelor of Science in Computer Science | San Jose State University | 2021**

**GPA: 3.4/4.0**

## **CERTIFICATIONS**

- AWS Certified Solutions Architect - Associate (2023)

## **PROJECTS**

- Open Source Contributions: Contributed to several popular GitHub projects
- Technical Blog: Write about software architecture and system design patterns
