Location: Seattle, WA | LinkedIn: [linkedin.com/in/thomasrichards](https://www.linkedin.com/in/thomasrichards)

PROFESSIONAL SUMMARY

DevOps engineer with 5 years of experience managing cloud infrastructure and building CI/CD pipelines. Expert in containerization, orchestration, and infrastructure automation.

TECHNICAL SKILLS

Cloud Platforms: AWS, Google Cloud Platform, Azure

Containers & Orchestration: Docker, Kubernetes, Helm

Infrastructure as Code: Terraform, CloudFormation, Ansible

CI/CD: Jenkins, GitHub Actions, GitLab CI

Monitoring: Prometheus, Grafana, ELK Stack, Datadog

Scripting: Python, Bash, PowerShell, Go

Networking: VPC, Load Balancers, DNS, CDN

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer | CloudSystems Corp | Seattle, WA

March 2020 - Present

- Manage AWS infrastructure for high-traffic SaaS platform
- Design and implement Kubernetes clusters on EKS
- Build and maintain CI/CD pipelines for automated deployments
- Implement monitoring and alerting systems
- Optimize cloud costs and resource utilization
- Ensure security compliance and best practices
- Participate in on-call rotation for production support
- Mentor junior DevOps engineers

DevOps Engineer | TechStart Inc. | Seattle, WA

June 2018 - February 2020

- Built Docker containers for microservices applications

- Automated infrastructure provisioning with Terraform
- Configured and maintained Jenkins CI/CD pipelines
- Implemented log aggregation and monitoring
- Collaborated with development teams on deployment strategies

EDUCATION

Bachelor of Science in Information Technology | University of Washington | 2018

CERTIFICATIONS

- AWS Certified Master Architect (2023)
- Google Certified Senior Cloud Engineer (2023)
- Certified Kubernetes Expert (CKE) (2022)
- Docker Certified DevOps Professional (2022)
- Advanced Python Programming Certification - Stanford University (2021)
- HashiCorp Terraform Professional (2022)
- Red Hat Certified Engineer (RHCE) (2020)

ACHIEVEMENTS

- Reduced deployment time by 70% through automation
- Achieved 99.95% uptime SLA for production systems
- Successfully migrated 50+ services to Kubernetes
- Speaker at Seattle DevOps Meetup

TECHNICAL PROJECTS

- Built automated disaster recovery system
- Implemented multi-region active-active architecture
- Created internal tools for infrastructure management
